

To the Freeholders of Passaic County: **Save Rifle Camp Park – Stop the Disc Golf Course**

Rifle Camp Park (in Woodland Park, NJ) is one of last remaining natural areas in lower Passaic County. But the County has a plan to install an 18 hole tournament-size disc golf course here. Disc golf is not compatible with passive recreation activities, and will conflict with the needs of senior citizens and people with disabilities. The disc golf course will have a highly detrimental impact on the environment. Over 100 trees will be cut down and fragile ecosystems destroyed. Important bird and wildlife habitat will be eliminated. Long term decline of the forest will result. Installing a disc golf course in this park is inconsistent with the goals stated in the County Parks, Recreation & Open Space Master Plan, and it directly contradicts the needs of residents, as reflected in the Master Plan. This project will take the park away from the many people that regularly use the park, and hand it over to a single special interest group. We the signers of this petition, thereby appeal to the Freeholders to reject the installation of a disc golf course at Rifle Camp Park. **(Check box for email updates)**
